THE HERALD.

JOHN P. BARNETT, Editor.

WEDNESDAY, MAY 2, 1883.

BOWLING GREENS. With a population of 3,000, has five weekly, one semi-weekly and one daily paper.

SOME want Jones, but others do not. Buckner will climb Jacob's ladder before he gets to Frankfort.—*Chicago Times.*

Col. SAM McKEE of Louisville was tried and discharged upon a warrant charging him with embezzling and collecting an illegal pension fee.

We regret to learn that hydrophobia has made its appearance in Calloway. Several dogs highly prized have been killed by order of the officials.

MR. MARSHALL W. NEAL, late business manager of the Glasgow Times, has bought an interest in the *Kentucky Herald* and has become business manager of that paper.

HENDERSON has a company already organized with sufficient capital to start a first class cotton factory. The business and the *Reporter* man need to be proud of it, as he shows in his last issue.

J. P. GREGORY, of Daviess county, sold his crop of White Turley, a few days ago, for \$22.50, \$20.00, \$18.00, and \$15.00 per hundred pounds for head, \$12.00 and \$11.00 for the legs, and \$5.00 and \$4.00 for the trash.

The Republicans of Graves county recommended E. W. Hagley, of Paducah, for Governor; S. R. Crumbrugh, of Hopkinsville, for Secretary of the Navy; and endorse the nomination of Gresham as Postmaster-General.

PROF. W. B. HAYWARD, of Ohio county, candidate for Superintendent of Public Instruction, delivered a fine address to a good audience, at the Court House last night.—*Owensboro Post.*

M. C. GIVENS, of Dixon, Ky., is warning up the officers of the Kentucky Masonic Mutual Life Insurance Company at a lively rate and shows the concern to be largely behind in paying its death losses and in an embarrassed condition generally.

The post offices of McHenry, Ohio county, and South Carrollton, Muhlenberg county, will become money order offices after July 1st, 1883. Also Morehead, Owenston, Irvine, Mount Vernon and Shepherdsville.

ELKTON Register, J. T. and J. J. Edwards, of our county, sold their crop of 1,000 pounds of White Turley tobacco, grown on four acres, at the Louisville Warehouse Sherry & Glover, proprietors at the following prices: \$21.50, \$14.50, \$11.00, \$10.25, and \$8.00 per hundred pounds.

The mass meeting of the Democrats at the court house next Saturday evening to elect delegates to the State Convention, should be largely attended and give Prof. W. B. Hayward such an endorsement as he merits. After instructing for him first, last and all the time, it should reform without further instruction.

PROF. W. B. HAYWARD of Ohio county, candidate for Superintendent of Public Instruction, spoke at the court house Wednesday night to an audience of about one hundred and fifty persons. His address was replete with original ideas, clothed in the choicest language. At the conclusion he was warmly applauded. Prof. Hayward has made many staunch friends during his visit here, and it is expected on every hand that he will carry the county.—*Owensboro Messenger.*

At Bridgeville, Ohio county, there was a terrible storm yesterday and hailstones fell almost as large as peas. A veracious correspondent says that in Hunter's cut, on C. & O. S. W., the hailstones gathered in such a quantity from rolling down hill that a train was delayed an hour.

The above has been published in the dailies under the head of "Kentucky News." Where is Bridgeville? where is Hunter's cut? It's news to the people of Ohio county.

TURKEY is one universal rejoicing in Hartford over the removal of Frank Turpin as agent of the C. & O. S. W. R. R. Co. at Beaver Dam. We understand he goes to Kansas and we are all willing he shall stay there the balance of his days. Col. L. M. Deam filled the place there for years and everything was attended to in a manner that gave perfect satisfaction, but his freight, express matter, etc., have been delayed in every way possible since Turpin has been in charge. We understand that an excellent agent and operator in the person of Mr. Oliver, formerly with the C. & N. R. R. Co., is now in charge and is an accommodating, experienced man and one that will attend to his duties strictly. So note it be.

GIVENS, of the *Times*, thinks a man is not entitled to any honors or emoluments because of past services to his party. Well having these out of question, we would like to inquire if Col. Thos. L. Jones be not the equal of his competitors, and does not our friend think he would make a good Governor? We have nothing to urge against Col. Jones' competitors on the score of ability and integrity, but as he is their peer in every respect and has labored in and out of season for his party, while they have been quietly, leisurely feeding on the leaves and dices of office, we sincerely think the Democratic party of the State owes Col. Jones the nomination, and it would be doing nothing more than its duty by the faithful servant in giving him the governorship.—*Madisonville Times.*

The Logan county Republicans have instructed for A. M. Swopes, of Lexington for Governor.

We would be glad to see as many Democrats as possible out to the mass meeting at the court house next Saturday evening. Let us give Prof. W. B. Hayward such an endorsement as a true and tried Democrat, the scholar and the business man, as he richly deserves. He is the best man in the field for the office of Superintendent of Public Instruction.

The dailies are full of the shocking details of the Thompson-Davis tragedy at Harrodsburg. It is not our purpose to detail the story of the criminal lunacy of Walter H. Davis and Mrs. Thompson. If they were guilty, and circumstances are against them, swift and terrible has been their punishment. After the shooting, Thompson went to the Circuit Court, then in session, gave himself up and then gave his statement of the case. His speech was that of a man feeling that he had been fairly wronged and outraged by his neighbor and relative. The crowd was much affected by the statement of Thompson and the sympathy of the entire community seems to be with him. Hon. Phil B. Thompson, or "Little Phil," as he is known, is deservedly popular throughout the county and numerous telegrams of sympathy and condolence are being sent to him daily. The Grand Jury is now in session and before this appears, may have acted in the matter. If the Grand Jury indicts him, it is not believed he will be punished. That he acted as he believed upon facts and not false suspicions, we have no doubt, and we regret exceedingly that this shadow is to be cast over one of the most heroic and brilliant young men of the State.

It is Not. The tariff is the only living issue before the country. Take it away and there is positively nothing between the parties to dispute about. One by one the Democrats have wrenched from their opponents all their constitutional positions held on years ago. They have extorted from the supreme court and legislative administrations a surrender of all the false policies and practices born during the reconstruction period. The Republicans still cling with palsied hands to their protective war tariff, the manifest voice of the country, demands that it, too, be surrendered. Is this a time, then, to take the tariff aside and have a popular squabble on the only national question that has blood in it?—*Missouri Republican.*

DEAR SIR:—The primary convention of this precinct was duly organized on Saturday, April 12th, 1883, with Geo. W. Taylor in the Chair.

The ballot was cast with the result as follows:

Williams, 22; Coleman, 16; Weller, 1.

Delegates appointed, Dr. H. N. Patterson, J. R. Taylor, T. Morton, V. M. Porter, G. W. Newlin.

[Attest] G. W. TAYLOR, Ch'lm.

Rockport for Coleman.

Editor Herald:

As you requested, I report the election held at this place on the 28th inst. Sixty-two votes were polled, 54 for Coleman and 8 for Williams.

Sixteen instructed for the strongest man as 2nd choice, Williams, 25; Coleman, 7; Weller, 3; 9 for Coleman only.

Two or three instructed, Williams votes will freely support Coleman if he (Coleman) is nominated. That he will be, we presume is certain. Evidently the old veteran, whose fidelity to his party, no amount of collusion and abuse has ever shaken, whose highest aspiration is a seat in the Legislature, and whose one single, unyielding, uncomparable purpose of "getting there" is crowned with a tenacity akin to Sparta and Grant; with his many representative qualities that will never down has crushingly overriden all obstacles and turned opposition into sympathy and warm support.

Now, let us vindicate this old hero, all scarred with party service, vindicate him who is the staunchest, purest, truest Democrat this side the days of Jefferson and Jackson. With our hats tossed high in the air, let us with one prolonged, enthusiastic, patriotic, democratic yell, whoop him in.

Although nature alone can produce perfect beauty, art may in a great measure supply nature's deficiencies. We see this manifested in the clearness and purity imparted to even a sallow face by the use of Sulphur Soap. The lady of forty, who uses this beautiful drops at least ten years of her age, is like the dangerous cosmetics which obstruct the pores, it is entirely harmless. See that "C. N. They can Sell It in 1884.

The patriotism of J. B. and A. H. of Knottsville, is worthy of imitation. They have a hoghead of tobacco twenty-two years old, which they decided to sell when first asked for \$200, because they believed the price too low, and afterward agreed between themselves to hold it until a Democratic President was elected and inaugurated. They thought the time had come in '76 when Tilden was elected but he was not inaugurated; they made no attempt to sell. Their hopes were again blasted when Hancock was defeated, but they are now looking forward to the contest of '84 with renewed hope when McDonald is to triumphantly enter the White House. The hoghead bears evidence of having passed through the civil war, there being a number of bullet holes in it.—*Owensboro Messenger.*

The Muhlenberg Riot.

The *Messenger* is in receipt of particulars of the riot among the railroad hands in Muhlenberg county, on Thursday morning a posse of men summoned by the Sheriff arrested six more of the rioters and started to Greenville. When they arrived in the town and turned the prisoners over to the Sheriff, he said:

"There are only five here; you told me you arrested six. Where is the other?"

"He is dead," calmly replied the spokesman of the party; and then it was learned that they were overtaken on their way by a man named Terry, who with a shotgun shot and killed one of the rioters, a negro named Mayfield, one charge going through his head and another through his body. The corpse was left on the roadside. It seems that Mayfield had made threats against Terry's life, swearing that if he could not kill him he would burn his house and kill his wife and children. Terry was arrested.—*Owensboro Messenger.*

Livermore Eggs.

Several events have happened since my last, the most noteworthy being the shooting of Joe Mehl of Livermore, by a man named Bratcher of Butler county, George Wiggins, who Mehl said was the cause of the shooting, was arrested by town marshal Freeman and taken to Hartford for trial, the shooting being done in Ohio county. I might tell the particulars, but as the trial will take place in your town you can hear all about it and tell it better than I.

Obituary.

Died, on what is known as the Warner Cobb farm, two miles south-west of Fordsville, this county, Thursday, April 5th, 1883, of consumption, Sarah Hester, consort of Woodford Sharp, in the 25th year of her age. Hester, as she was called, was born on the second day of January, 1859, and was a daughter of Tobias B. and Martha Martin; she was married April 10th, 1881. She was not a church member, but her conduct was that of a Christian lady, and previous to her demise, she expressed herself as perfectly satisfied with her hope in Christ, saying that all would be well with her in that home prepared for the redeemed. On the 6th, her remains were laid by the side of her little son in the graveyard on the farm of John Miles. Thursday the 10th, her husband, after taking leave of his friends and looking at the graves of wife and child, perhaps for the last

Slaty Creek.

Editor Herald:

Please give me space in your news columns to accomplish a necessary reform and a much needed public service, and at the same time prevent confusion among your host of readers who are often confused by reason of the many different names applied by county contributors to the cross-roads from which they write. But to explain: Many years ago Rev. Judson Taylor built a large church here which was called No. 1 at the dedication. Long after it had been called No. 1 it was designated as Slaty Creek, and by many years was known as No. 1, or Slaty Creek. But when stores, factories, millshops, saw and grist mills homed up and it began to assume the importance of a country village, then it was that some one, not known now,

possibly my own son, growing tired seeing the gentlemen sit on goods boxes, and having no sympathy with them, exclaimed at Glasgow, "I repent bitterly that I have contributed under this caption, and my apology is that no more will this blushing, blushing 'Slaty' do so again, but under the proper name, Slaty Creek. I hope hereafter that it will be remembered that Slaty Creek No. 1 and Glasgow have harmoniously blended into Slaty Creek, giving it back its former and better name."

As some of your readers have a relish for poetry, and expressed a wish that I should contribute, I would like to accommodate them, but, knowing the fate of all the spring poets, I desist.

Best wishes for your success and happiness, and hoping that all the inhabitants will take the county paper, as they should, I add nothing more. HASTY.

From the Far West.

MARSHFIELD, OREGON, April 15, 1883.

Your paper has found its way to our home through the means of a kind aunt and I assure you it is a welcome visitor.

As I see many letters written to your paper from different places, I will write a sketch of this country as some of our readers wish me to tell what I know. This country is situated on the 43rd parallel, north latitude, therefore, the climate is mild. We have had but few frosts and one snow and the fields have been green all winter. The stock live on the range and some are good beef. Many winters we have no snow in the valleys, and when we do, it seldom remains longer than a day or two. This winter, which was an unusually cold one here, the coldest weather we had was 21 above zero and that only two weeks, therefore judging our climate by its latitude would greatly mislead people in the East, both as to heat in summer and cold in winter; the thermometer seldom indicating above 75 or 80 in the summer, and the nights being invariably cool. A climate so mild and equable, could not be other than irrigating and healthful, and probably no healthier climate is to be found in any country than that of Oregon, and I am sure, being bounded by the ocean on the west and guarded by high mountains from the hot winds sweeping across the continent from the east, is peculiarly free from fevers and malarial diseases. The topography is altogether different from that of either the western or Atlantic States, consisting of hills or uplands, covered with dense forests of fir, hemlock, spruce and cedar, which bear their tall heads several hundred feet above the surface, which is covered with vegetation and undergrowth, in many instances, so rank that if a tree happens to fall across the road it is simply impossible to get around. People accustomed to the open forests in the East, would fall to realize the dense undergrowth without seeing for themselves. Along the rivers and small streams are smaller valleys that are also covered with forests of maple, alder, willow and various other kinds of undergrowth. In these valleys the soil is exceedingly productive, producing from 25 to 30 and sometimes 40 bushels of wheat to the acre. For grass, fruit and vegetables, the valleys are not surpassed anywhere, and fruit is never winter-killed.

Reducing these valleys to cultivation requires much labor; the uplands produce good crops of grass, which cattle live on during winter.

Wages average from \$20 to \$30 per month; men need be idle who wish to work. Farming, logging, sawmills, coal mines, steamboats and various other industries always create a great demand for laborers. The best valley lands are nearly all taken up, but there is yet much upland that is valuable for timber.

Cos Bay is the second largest port in Oregon, and with the natural wealth of the country cannot fall within a few years to occupy a position for wealth and population second to none in the State. The amount of business carried on in the county would surprise anyone who had been here eight years ago. Points on the Bay that then were nothing but brush thickets, are now towns, containing from fifty to a hundred votes, containing hotels, saloons, stores, and in fact everything save churches. There are four sawmills in active operation, which, with the mines, will give employment to twenty or thirty transportation vessels from this point alone. Three passenger boats ply the waters of the Bay daily and are well patronized, and to give some idea of the amount of travel, it will only be necessary to state that there are only eighteen hotels in the county, and all are well sustained.

This is more of a lumbering and mining than a farming country. Those wishing a mild climate cannot do better than to try this.

Success to the *HERALD* and its editor, with best regards I am truly yours, WILLIAM T. WALLACE.

Owensboro Tobacco Market.

J. T. Harrison, Proprietor of the Plunkett Tobacco Warehouse, Owensboro, Ky., sends reports of 63 loads, which form a part of his sales since our last report. The market is firm:

Pine-tree Chamber.

Farmers are better off than last spring than most, on account of so much rain. Every little dry spell we see the dunes going from house to house exchanging garden seeds. This town can boast of fair taking their bits all in the same family. We have no smallpox here. You ought to have seen how proud I walked when I saw that Nancey Jones Jones had been resurrected. Yours, J. M. JONES.

We are authorized to announce that RICHARD H. STEVENS, of Beaver Dam, having been elected a factor in the representation of this county in the next Legislature of Kentucky. He was unanimously nominated and requested to make the race by the Greenback convention held in Hartford April 24, 1883, and having accepted the same he is now before the people and asks a due consideration of his claims.

PERSONALS.

Persons in town having visitors or any other item they would like in this column would confer a favor if they would inform this office. The town is not very large, but one hand can't get all over it every day and run a newspaper.

Mr. Hingo, a former student of Hartford College, was in town last week. We are glad to see our old friend Judge L. H. Lane out again after a few days' illness.

Miss Hubbard, of Chicago, Illinois, is visiting her brother, Mr. E. P. Hubbard, of this place.

Mr. John R. Collins and wife, of Central city, were in town Sunday visiting relatives.

Mrs. M. A. Wilkes, of Horse Branch, was in town several days this week on legal business.

Mr. James R. Coppage, wife and daughter Miss Sallie, left the Herald office a visit last Saturday.

J. J. Cummings, Esq., formerly of this county now resident of Grayson county was in town the first of the week.

Miss Jane Grider, of Bowling Green, after a short visit to relatives here left for home last Wednesday.

Prof. A. Bennett, formerly a member of the faculty of Hartford College, but now of Greenville, Ky., was in town last week.

Mr. D. W. Moore, Evansville, general manager of the Singer Sewing Machine Company, was in town a day or two this week.

Miss Allie Anderson left yesterday for a visit to the family of Rev. Willis Smith, Owensboro, and will be gone about a month.

Miss Alice Munzy left Saturday for her home in Dixon, Ky., after a protracted visit to her brother's family, W. B. Munzy, of this place.

James Sullenger and son, C. B. Sullenger, W. H. Moore and James T. Moore all returned last Saturday from Evansville, where they had been on a saw log expedition.

Judge R. S. Mosely, who has been in Atlanta, Georgia, for several months past, returned home last Saturday. The sunny South land seems to agree with the Judge, as he looks exceedingly well.

G. B. Exall, Esq., general agent of the Royal Insurance Company, was in town last week. He went from here to McHenry to adjust the loss of Peter May, an account of which we gave last week.

Mr. James M. Lawrence, a native of the county and for a long while connected with the depot at Beaver Dam and one of the cleverest young men alive is in town this week, looking as handsome as ever. Girls, he is still single.

Robert Marshall, Esq., representing John T. Siler & Co., wholesale cigars and tobacco dealers, was in town yesterday. He is one of the fairest, squarest drummers on the road, represents a good firm, and never knowingly misrepresents his goods. Our merchants would do well to make a note of this and try him, that is, if there are those who have not already done so.

J. "Loot" Collins says that the "Mint" is supplied with none but pure liquors, whiskeys, brandies, &c., and asks those who indulge in a wee drop to call on him. Cook & Rice's lager beer on draught at all times.

—Remember you can buy a good sewing machine with cover for \$20 at Anderson's Bazaar.

—Just received new cottonades per express, at Z. A. Rosenberg's.

—The colored school closed here last Friday with an exhibition Saturday night.

—Tiger overalls, warranted not to rip, and cutomade pants, at Z. A. Rosenberg's.

—I have a few late style ladies hats which I will furnish ready trimmed at very low prices, S. B. Bishop, Assessor.

—For the best and cheapest hand-made saddles and harness, call on Thos. S. Duke next door to Hartford House.

—Ann Rebecca Collins, one of the oldest colored women in Hartford, died Monday morning of some kind of throat disease.

—The Hartford Water Mills are grinding and will be ready to card wool by the 10th of May. Bring on your grain and wool.

—Rev. J. W. Taylor preached at Centerville last Saturday night and Sunday. He had quite a large and appreciative audience on Sunday.

—If you want a new cool drink of soda water go to Williams Bros. The ice in it is from their new ice cutter and is much cleaner and cooler than the old way.

—Samuel Barnett has moved from the Morris Barnett farm, on No Creek, to the farm recently vacated by the death of Mr. Stephen Woodward, and will cultivate the place this year.

—D. F. Tracy will handle the Harvest Mower and Reaper this season. It is a first class machine. He also has a lot of good wagons, luggies and Avery plows on hand for sale at a bargain.

—Thos. A. Gilstrap, of Louisville, Ky., is one of the live merchants in the county. He believes in printer's ink, and hence has had a big run of trade, and will hold it, for he always does all his advertising that he will do.

—Mrs. Fide Wise, having secured the house of Mrs. Alice Kimbley, desires to inform her friends and the public generally that she is prepared and will entertain transient custom and will be thankful for patronage.

—Rev. J. W. Taylor, Colporteur, is canvassing the county selling Bibles and Testaments. He will canvass the Point neighborhood this week. He is also authorized to receive subscriptions for the Hartford HERALD.

—Mr. V. P. Addington has just received a new lot of goods. He is one of the fairest, squarest dealers in the county, is a good judge of goods, has long experience, lays for cash only and sells as low as any one handling the same class of goods. Call on him and see if what we say is not entirely true.

—Something new under the sun, a glass hand wick. It is neat, cheap, non-combustible and trimming required, no danger of explosion. They produce a clear, brilliant light and will last for three years ordinary burning. For sale by Thos. & Kimbley, Hartford, Ky. P. S. We have tried one and found that it works like a charm.—Ed.

—Gentle spring has come at last. Birds and blossoms now unfold, foods of rarest style and taste.

—At the Exchange store are sold, And sticky though this may appear, It is true in every word and letter, And we say boldly without fear, That you never can do better. Thos. Gilstrap, Exchange Emporium, Cincinnati, Ky.

—Married, at the residence of F. W. Pirtle, near this place, Wednesday, April 25th, 1883, by Rev. J. A. Bennett, Willie Taber, of Sulphur Springs, to Miss Belle Pirtle, oldest daughter of F. W. Pirtle, Sam Wallace and Miss Mattie Crow, attendants. They left soon after the ceremony was performed for Pardon Taber's near Hines' Mill, where a nice reception awaited them. We wish them a life of unalloyed happiness.

—Jerry Williams, of Williams Bros., this town has invented a new ice cutter which is the most perfect thing of the kind we have ever seen. It has an apartment where the ice is kept from melting and a separate place for the ice to be cut. The ice is held in its place by a spring, and the cutting is done by a wheel of knives turned by a crank and the finely shaved ice falls through a tube into a glass ready for use. Call and see it.

—By invitation of Z. A. Rosenberg we took a peep through his store one evening last week. We found that he had a very complete assortment of dry goods, clothing, notions and every class of goods the people need. When we priced them we were perfectly astonished at their cheapness. Reader, if you will go to Rosenberg's you will find just what you need, and find the price to suit. Try it and be convinced.

—Lost—May 1st, '83, my dead-head book. I will charge 50 cents for each passenger to and from Beaver Dam and must have the pay when the work is done until I find that book, due notice of which will be given.

P. S.—I am not offering a reward to the finder of said book.

JOHN S. VAUGHT, Prop. Beaver Dam Stage Line.

—Pike's Toothache Drops cure in minutes.

—New lot of raffles just received, Z. A. Rosenberg.

—Mr. Brown has rented and moved into part of Mr. Al. Patton's house.

—Just received best lot of shoes and boots in Hartford for the price, at Z. A. Rosenberg's.

—Lycurgus Miller, Esq., has added to our museum a specimen of rock which we appreciate.

—Men's boys' youth's and children's clothing just received, prices low, at Z. A. Rosenberg's.

—The next quarterly meeting of the Methodist Episcopal church, Hartford circuit, will be held at Mount Vernon church May 12th and 13th.

—Laudrid and unlaundrid shirts, collars, cuffs, silk handkerchiefs and suspenders, just received, at Z. A. Rosenberg's.

—J. W. Ford will handle the Champion Reaping and Mowing Machine this season. Leave your orders for the same and for repairs on old machines on hand, early.

—It has been circulated in some quarters that we had cases of small pox in Hartford. It is utterly false. We have not had a case here to our certain knowledge for twenty years.

—We learn from Judge A. R. Baird, Auctioneer, that the property of the estate of S. Woodward, deceased, especially horses, cattle, sheep and hogs sold very high at the sale last Friday.

—The reason that Thos. H. Hovey has such a fine trade is, that they keep good goods, well assorted, sold at fair profits and attend closely to business and are exceedingly obliging and accommodating to their customers. They deserve success.

—Since our last issue, we learn that the wife of Josiah P. Barnard, of the Point neighborhood, took smallpox and died last Saturday morning. Two of his little daughters have the disease and he was still quite sick when last heard from.

—We think it a new fashion here and rather early in the season for the young gentlemen and ladies to go to bathing. A pair of them were in such a hurry about it that they did not wait to have regular bathing suits prepared, but plunged in head-foremost and waded out.

—Go to Thos. & Kimbley's for your paints, oils, dye stuffs, varnishes, &c. They will have in a big lot this week, including mixed paints. Frank E. Kimbley, who attends the store, is one of the live merchants and best druggists in the county, and is always at the post of duty.

—We are glad to learn that the little boys of Dan T. Wilson, near Horse Branch, who were poisoned last week by eating pork root thinking it was sweet potato, have entirely recovered. They are indebted to the prompt and skillful treatment of Dr. N. J. Rains, of Rosine, for their speedy recovery.

—The Ladies' Social met at the residence of Mrs. W. F. Gregory on Saturday night last. Notwithstanding the inclement weather a good number attended, and a nice little sum was realized to aid the Baptist church in this place. The next meeting will be held at Mrs. S. W. Anderson's on Saturday night, May 12. All are invited.

—A. J. Carter, Esq., living a few miles above town, found in his orchard recently a peculiar fowl that looked as though it might be a water bird. He brought it to our office and some of our sportsmen who saw it pronounced it a water hen. It would not eat or drink, so we had to turn it loose to keep it from dying.

—Mr. Jacob Small, the popular young salesman for H. Small & Trade Palace, has been making some needed repairs and changes in the Trade Palace. He has newly varnished the counters, rearranged the commodious show cases and systematized his whole stock as to be able to wait on his hosts of customers. The store looks like a real palace now. He will receive new goods this week.

—H. D. Runtion, an old citizen of the Centerville district, died last Friday night after a long illness. He went for J. Edwin Rowe, a lawyer of this town, last week to write his will. He bequeathed 400 acres of land and personal property to Mrs. Harriet Mosely, 200 acres of land to the heirs of Wm. Mosely; proceeds of a house and lot in Greenville, to be sold by the executor, to the widow and heirs of Wm. Mosely. J. Edwin Rowe was appointed his executor.

—At the Union Sabbath school in this place, Judge A. B. Baird is giving a series of talks or short lectures to the scholars and visitors, upon the early condition, history and settlement of this county. He occupies about 20 minutes after the regular exercises are through. On Sunday last he gave a description of the animals that were here before the advent of the white man, their peculiarities, &c. In regard to the mode of life, instincts and habits of the beaver his lecture was decidedly interesting. On next Sabbath his subject will be the first inhabitants of this county, who they were, their mode of life, &c. It will pay you to go and hear Judge Baird next Sabbath.

—Col. W. H. Moore, of Hartford, agent for John A. Reitz & Sons, Evansville, Ind., has bought full 15,000 logs for his firm that have been run out of Rough Creek alone this year, which have brought back to the county full \$45,000, and will, when sawn up make 4,500,000 feet of lumber. This, in addition to the timber bought on Green River and other tributaries by Col. Moore is a big thing. He has given entire satisfaction to his firm, and he and the firm have conducted business so as to satisfy all the raftsmen. In addition to the purchases of this firm, other firms have been large dealers in the Green River country, and it is safe to say that \$100,000 have been scattered around here for timber alone during the past fall and winter.

—Hill's Hair and Whisker Dye, 50c.

—Born—To the wife of B. P. Berryman, April 23rd, 1883, a daughter, Annie Lela.

—Just received men's boy's, youth's, child's and misses' straw hats, at Z. A. Rosenberg's.

—Born—To the wife of Isaac Hovey, April 23rd, 1883, a girl; Dr. J. C. Hovey attending physician.

—Towels, table linen, red spreads, oil cloth, bleached and brown cotton at astonishingly low prices, at Z. A. Rosenberg's.

—Willie Alexander, son of Rev. R. C. Alexander, has accepted a position as salesman and clerk in H. Small's Trade Place.

I had severe attacks of gravel and kidney trouble; was unable to get a medicine or doctor to cure me until I used Hop Bitters and they cured me in a short time. A distinguished lawyer of Wayne County, N. Y.

—Best cotton jeans at 20 cents per yard at H. Small's.

—We had the pleasure of a call from Mrs. W. J. Smith, McLean county, accompanied by Mrs. Hudson, near town. Mrs. Smith very kindly remembered us with \$1.50 for the HERALD.

—On Thursday, the 5th inst., the Fordsville undertaker, E. F. Forbes, had two orders for coffins within five minutes of each other; one wagon took both coffins; they went to the same neighborhood and were laid in the same graveyard.

—An infant of Thos. and Zelma Ford, living two miles southeast of Fordsville, died on the 5th inst. In the evening its remains were laid with other members of the family in the graveyard on the farm of John Miles.

—Thos. Greer, of Beas neighborhood left last Saturday for St. Joseph, Mo., to consult Dr. S. A. Richmond. Mr. Greer has long been afflicted with epilepsy, and he sincerely trusts he may return home permanently cured.

—Thos. L. Baird, clerk of the Hartford House, says that he is absolutely certain that if the County Court will expend another thousand dollars on the levee north of Hartford it will be impossible. Tom, how deep did you say that water was?

—Born—To the wife of John T. Flocker, April 20th, 1883, a son; weight eleven pounds. Dr. W. J. Berry, of Beaver Dam, attending physician. Mother and son doing well and John T. a happy pup. John, you have our congratulations.

—James L. Miller, Esq., of the Hardin Ashley neighborhood, passed down last Sunday with a large raft of saw-logs bound for Evansville, Ind. He had engaged the most of them previously to running them to Col. W. H. Moore, agent for John A. Reitz & Sons.

—Henry Arment, the boss carpenter and builder of the Green River universe, left last Friday for Caneyville, being sent for by Hardin Wilson, who unfortunately lost his dwelling by fire recently. Mr. Arment will go from there to Bevellyville, thence to Falls of Rough. He has propositions for work at all these places.

—The levee on the Owensboro road from Hartford to the high land near Col. Shanker is in a terrible condition. We know in our residence of sixteen years here, of enough money being expended on that piece of road to build a stone wall, eighteen feet wide, above high water mark, clear across the flat and it is in worse condition now than ever before. Cannot something be done to fix it?

—Mr. H. C. Shaft, foreman of this office, has a bracket saw with which he makes from the most exquisite patterns brackets, card-baskets, photo frames—from small to cabinet size—doll beds, stools, bed furniture, &c., &c. Any one wishing anything in that line will do well to call and purchase some of his artistic work.

—Hines & Barnett, tobacco dealers, of Hartford, purchased a crop of white burley tobacco, growth of 1882, of A. J. Carter, a few miles above Hartford, and have sold a hoghead of it through Megraw, Helm & Co., proprietors of the Ninth Street Warehouse, Louisville, Ky., for the snug sum of \$16.75 per hundred.

—Mr. Thos. L. Baird, the polite and handsome clerk of the Hartford House, while crossing the levee last Friday evening in a buggy, accompanied by Miss Laura Midkiff, met with quite an accident. The water was all over the levee, and in driving, went too near the ditch. The buggy, horse and inmates were precipitated. Tom, realizing the situation, began work; he first rescued the young lady and next the horse, leaving the buggy in the water. The party then started on foot for the Hartford bridge, wading in the water the whole way. The young man deserves great credit for his activity in rescuing the young lady and horse. They reached town safely, but were the wettest couple you ever saw.

—Come and see the new clothing just received from New York. Beats a n-y-thing ever yet seen in Hartford. Fine goods at low prices. Also just received a nice lot of Hamburg embroidery de rires laces a n d edgings, and the newest styles of collars and fichus. Call early at H. Small's Trade Place.

Mrs. R. T. Mosely, of Liberty neighborhood, is quite sick of spinal affection.

—All persons indebted to D. F. Humphrey are requested to settle their accounts with C. M. Pendleton at once.

—The Red Front has just opened up a Soda Fountain and are serving their customers with that beautiful, exhilarating, sparkling, cooling beverage.

—Remember that T. F. Schaepler, the old reliable tool and shoe-maker and repairer, is alive and at his post, ready and willing to do good work at honest prices.

—F. J. Weinshimer, Jeweler, is prepared yet to do any kind of repairing on watches, clocks, jewelry, spectacles has also for sale, a good assortment of spectacles and eyeglasses at moderate prices.

—Ed C. and Virgil Renfro passed here Sunday with about 200 saw logs, bound for Evansville, Ind. They had sold them before running to W. H. Moore, agent for John A. Reitz & Sons. This is the second run of logs they have made recently.

—E. L. Sullenger keeps a lively stable just right. His saddle and harness horses, buggies and spring wagons are good and prices moderate. Conveyances furnished with or without driver on short notices. Horses left with him are well cared for. Five miles from town.

—Z. A. Rosenberg has the nicest assortment of walking cases ever brought to Hartford. Cane for the old and aged, for the young, the middle-aged, the Laidlaw, the Pop, the Duke, in fact, canes for everybody. Call and see the stock on trouble to show goods.

—The neighborhood of Magan's Store is now entirely rid of small-pox. There were but the three cases in Reuben Greer's family, his being the only fatal case. His wife had a mild attack of varioloid, and his child not a severe attack of small-pox, both of whom have entirely recovered, and no fears are entertained of other cases as every precaution has been taken to avoid it.

—Some one once said, "In the making of many things there is no end." In speaking of this Green River world, if some one had said, "In the running of many saw logs down Green River and its tributaries to Evansville there is no end," he would have hit the nail on the head. From the earliest of our recollection the creeks and river have been full of saw logs every year, and still they float by on every rise. The lumber resources seem inexhaustible.

—Mrs. Enoch Harding, of Waco, Texas, in a letter to her father, Judge Townsend, of Hartford, referring to a communication that appeared in the HERALD some time since, concerning the morals of the people of Waco, says: "By the by, I saw a terrible slander and lots of lies published in the Gazette and taken from the Hartford HERALD. You can tell Mr. B. there is not a grain of truth in it. Our city and country are in the garden spot of Texas, and there is as much morality here as anywhere. Such a gross misrepresentation must have originated in the brain of some Imp of Satan.

—Some time since, Mr. Thos. L. Felix with a lot of hands were rafting saw logs on Caney Creek near Wilson's Mills, in the upper part of this county. A rain came up and the hands sought refuge in a cave near by. While there they found a human skull, and when they went up to where Mr. Felix was, they took it with them. Mr. Felix suggested looking further, and they returned to the cave and found nearly or quite all the bones of a human skeleton, which they preserved and which are in a box at Wilson's Mills. Dr. A. R. Hays, hearing of the matter, searched the cave and found human hair, which is of a sandy or reddish color. The skull has a bullet hole in the left temple. Several years ago a peddler was in that locality and known to have some money and goods, and it is believed by many persons that he was foully dealt with and hid away in the cave. Those that profess to know say that the color of hair and length of skeleton suit for the peddler. The peddler's friends, we learn, have never been able to trace him further than the Mills. It is said that murder will out, and may be this will too, if a murder. We hope so. Let the matter be investigated.

From Dr. C. C. Clark, Oswego, N. Y.

"I have made sufficient experiments of Colman's Liquid Beef Tonic to enable me to say it is by far the best of all the preparations of the kind (food and tonic) that I have ever used. To the sufferer from chronic diseases, or the convalescent, it is invaluable. It is both nourishing and strengthening." (Remember the name, Colman's—take no other.) Of druggists.

A Regular Dog Fall.
Our readers will remember that in last issue we gave an account of R. A. Anderson being fined \$1.00 for breach of the peace on information of L. B. Hocker. Anderson had Hocker put on trial under the provoke law. Hocker was tried Friday last and fined \$1.00 also. Thus the legal wrestle between these two neighbors resulted in what we boys used to call "a dog fall." Brothers and neighbors should dwell together in unity and cease their ticklings.

Fire in a Dry Time.
Is not more dangerous than a consumptive cough. Arrest it with Hale's Honey of Horehound and Tar. Sold by druggists.

For the Herald.
Mr. Editor: You will please hold over for next week's issue the local I gave you yesterday, as business is so brisk I will not be able to wait on my increased trade this week.

Respectfully,
V. P. ADDINGTON.

A good woman is one of the greatest glories of the creation. How do the duties of a good wife and mother and a worthy nation, well performed, dignify a woman! A good woman is the heart of her home, who has any hand in her education, and on the company she kept. A woman of virtue and of good understanding, skilled in and delighting to perform the duties of domestic life, needs not fortune to recommend her to the choice of the greatest and richest man who wishes his own happiness.

Colorless and cold—A young girl deeply regretted that she was so colorless and cold; her face was so white and her hands and feet felt as though the blood did not circulate. Sensible Talk

The financial phrase of the common school system in Kentucky is not shared with very great difficulties. Manifestly, under democratic principles, the State pecuniary aid should only supplement the fund raised by voluntary taxation in the district. It should be understood that if the district "patrons" raise so much money for common school purposes the State will

Our School System

add a certain amount. State aid should, in fact, be promised and given in proportion to the practical interest taken by inhabitants of a district in public education. To this it may be replied that in many districts even the pledge of State aid will have no stimulating effect upon the people, and, even if money was spent by the State building school-houses, popular indifference in some districts would leave them continually empty. The true mode of procedure is to make it positively obligatory and mandatory on the citizens of a district to put up a school-house and employ a teacher. There is not a district in the State, even in the mountain counties, where the first essential steps can not be taken. Then, as to the poorest districts, a greater amount of State aid could be given, but the conditions should be emphatic and well defined. The nation that the children in a district must grow up unlettered because the parents do not want to go to the expense of securing educational facilities can not safely be recognized. It is as much a citizen's duty to disburse money for common schools as it is to distribute money to pay any description of State taxes or to provide for his family's physical needs. In the poorest communities of New England the school-house appears prominently. The disposition is to have school-houses and teachers, and children in them, even if personal sacrifices have to be made to secure these things—*Charles Johnson.*

Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong? If you continue feeling miserable and good for nothing, you have only your self to blame, for Brown's Hop Bitters will surely cure you. Iron and cinchona are its principle ingredients. It is a certain cure for dyspepsia, indigestion, malaria, weakness, kidney, lung and heart affections. Try it if you desire to be healthy, robust and strong and experience its remarkable curative powers.

Wealth

Wealth is pretty well brought down in these days to a question of health. If you are not in thorough good health, you are not fit for the daily battle of life. A man in poor health, can barely hold his own now-days, and as to increasing his income, that is out of the question. Therefore brain tonics, heart tonics, liver tonics, attractive tonics and electric tonics are considered by the hundred, and certain cures and safe-cures by the thousand as if there was safety in numbers. And all the while there is but one cure. Nature's own remedy. A simple natural combination of indigenous herbs, such as are contained in Dr. Clark Johnson's Indian Blood Syrup. The receipt of this remedy is as old as the ground country. In which it has grown, and it has cured far and wide, without the possibility of doing any harm to the most delicate system. This is perhaps why it has retained supreme over all these different concoctions with such bad names, and impossible theories, the herbs composing the Indian Blood Syrup have a natural power, an instinct within them, which naturally enables them to find their own cure, the particular part of the body which requires their aid, and they therefore cure with comfort, certainty and without danger. Thus, after their use, a man may go about his business with ease, and attain the position and fortune which his faculties, in a healthy body, entitle him to, and which with the perpetual cure of poor health he could never attain.

The Testimony of a Physician

James Bowler, M. D., of Signet, Iowa, says: "For several years I have been using a cough balsam, called Dr.

Win. Hall's Balsam for the Lungs, and in almost every case throughout my practice I have had entire success. I have used and prescribed hundreds of bottles ever since the days of my army practice, 1867, when I was surgeon of hospital No. 7, Louisville, Ky.

Our School System

It is gratifying to note that there is among the people a strong underlying feeling that our educational system must be perfected and put in successful operation. There is a wonderful unanimity of opinion that the one thing needed is money. The system of public schools inaugurated in Kentucky is conceded to be as good as could be desired, and it is also conceded that the State is liberal in supplying means for supporting the school. But the means supplied by the State are not sufficient to keep the machinery of the system in operation. To perfect the system, and when the area of its usefulness and bring all the youth of the State under its elevating influence seems to be the high ambition of those who originated the idea of holding the late Conference, and whose striving to influence legislation to advance the educational interests of the people.

We hear much now-a-days about taxation, and it is true that the burdens imposed are grievous; but taxation imposed for educational purposes is as broad cast upon the waters. It will return to bless those who bestowed it. Heavy taxes are imposed for the maintenance of jails, jails, and penitentiaries. No one complains of these things when the money is judiciously expended, but in no instance does the money so expended yield any net negative benefits. Taxation for educational purposes ought to be popular, if taxation for any purpose could find favor with the people. The development of mind forces is the mission of education, and no State possesses a greater source of wealth than the educated intelligence of its citizens. It is true that ignorance is the parent of vice, it may also be true that intelligence leads to virtue, but the State which contributes most to educational purposes, which advocates a policy that lifts the entire population to a high educational plane will, as a result, not only be most virtuous, but most prosperous, and most powerful in all matters where mind forces antagonize ignorance in any of its forms. To secure the necessary means for improving the public schools, the legislature must confer the power upon the Trustees to impose local taxation, this is the system in force in Indiana and Ohio, and it has been found to work advantageously to all concerned. The idea of National aid to popular education, which we advocated some weeks since, is growing in the public mind, and the recent Conference at Frankfort had it under consideration. It is clearly the duty of the Government to see that the youth of the Nation is educated, and a liberal appropriation annually distributed among the States in proportion to illiteracy would be a wise and judicious expenditure of money. The people should encourage the movement now on foot, and let selecting representatives to the next Legislature, distinct reference should be had to the views entertained by the several candidates upon the question of public schools. The sentiment now existing in the minds of all progressive people upon the subject of education should expand and grow to such formidable dimensions as to silence all objections to taxation, or whatever else may be necessary to the accomplishment of the great object in view.—*Southern Progress.*

A Blowing in Diagonals

484 Adelphi Street, Brooklyn, N. Y., March 26, 1887.

No family should be without ALLY'S CREAM BALM; their healing powers are wonderful and their efficacy far reaching and lasting. For years past I have seen and known them to cure and relieve the most obstinate and distressing cases of rheumatism, kidney complaints, bronchitis, neuralgia, inflammation of the lungs and throat, paralysis, asthma, spinal weakness and rough and chills. In my own case they have afforded me almost instant and permanent relief. My friend consider them an invaluable and speedy remedy for all kinds of aches and pains. They are a blessing in disguise; and no wife or mother should be without them if she values her peace and comfort and freedom from exhaustion and other ailments. As a strengthening plaster, also for backaches and weaknesses, they have no equal. I have never yet found a plaster so efficacious and stimulating, or to give so much general satisfaction. Used in connection with BRAXFORD'S universal life-giving and life-healing Pills no one need despair of a speedy restoration to good health.

MRS. E. TOMPKINS.

ONE FINAL.—If you have been using other Plasters—except of *ALLY'S*—you will convince you of their wonderful superiority. Take another so-called plaster, plaster that claim to be better, they are all frauds gotten up to sell the world wide reputation of the genuine article.

Frank Leslie's Popular Monthly.

The May number is filled with matter of the most interesting and attractive character; the illustrations are profuse, and the colored frontispiece, "The Little Mischief Makers" from "Hummer's" painting, is really worth more than the price of the magazine. Among profusely illustrated articles are "The Shadows which Threaten France," by Richard B. Kimball; "Fools and Jesters," and "The British Museum," by N. Robinson; "Shall the Buffalo Go?" Reminiscences of an old Buffalo Hunter, "Freiburg," "Transit of Venus," etc., etc. The thrilling romance, "The Beautiful Countess of Chirville," is continued, and there are short stories, sketches, etc., by W. J. Morgan, David Best, Walter E. McMan, Henry C.

Evart, etc. Most of the poems are tastefully illustrated, and are from the pen of Julia Golding, John F. Waller, and other favorite writers. There is an abundance of brief articles, paragraphs, etc., entertaining and readable with information. A single copy is only 25 cents, or \$2 a year per post. Address, Mrs. FRANK LESLIE, Publisher, 53, 55 and 57 Park Place, New York.

THE NEW PATENT DUST-PROOF

Stem Winding Open Face Case.

Manufactured by the American Watch Co.,

WALTHAM, MASS.

This case is turned in one solid piece with out joint or seam, opening in front only, thus rendering it dust-proof and securing great strength and durability.

These Watches are made in a large factory, the largest in the world, and are finished with an especially prepared water-proof material, which is not affected by steam, heat, cold, or any other element, and which is not affected by dust and moisture.

To railroad men, travelers, soldiers, sailors, and all others who are exposed to the elements, and who have to make frequent reference to the time, these watches are of the utmost importance.

The following letters tell their own story:
